Meaning

I bow to the supreme Lord Śri Subrahmanya, who is great commander of his army, a clever leader, reflects the constellation of six stars, looking brilliance and majesty, who detained all devas and demons, uses peacock as his vehicle, seen with six faces, who likes the prayers offered to Him on the *Shashti* day (sixth day of growing phase of the moon), who abodes in a place known as Śaravana with natural spring and ponds and a young leader. Please always protect us.
